Odor Control Technology for Meat Processing Companies

Meat Processing facilities desire to foster and maintain a safe and healthy environment for customers and employees. However, unpleasant odors exist in meat processing operations. Let BioWorld help your facility maintain a pleasant environment with our BioWorld Liquid Optimizer Plus, odor neutralizers, foggers and accessories.

BioWorld Liquid Optimizer Plus is a unique **concentrate** bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus can be sprayed directly onto organic matter to help accelerate the degradation process while minimizing odors in the process.

BioWorld Odor Neutralizer (BON Concentrate) is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application. Your customers will definitely notice a difference!

BON can be added to solutions or used to clean and eliminate odors from:

- Counter tops/tables
- Food spills
- Trash cans
- Bathroom areas
- Paints, solvents, chemicals and cleaners
- Carpets and upholstery.
- BON can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors when maintenance, roofing, and flooring repair work is implemented.
- BON is used as a key component in a **low odor, low VOC** paint which received Green Seal Certification.

BioWorld Wastewater Treatment Technology

Advanced BioTech

Developer of BioWorld Products

BioWorld has a two part product available to aid in effectively digesting organic waste in wastewater while minimizing odors in the process. Let BioWorld help reduce odors and organic waste and save you money from costly repairs and outside maintenance cleaning costs.

Other BioWorld clients have successfully used the Optimizer Plus, Odor Neutralizers, Fogging Equipment and Wastewater Treatment Technology for numerous types of odors and wastewater issues associated with meat processing facilities. Repeat cycle timers, turntables and customized misting systems are also available. The BioWorld products provide a cost effective method for resolving many difficult odor issues.

Industrial and Commercial Applications – Liquid Optimizer Plus

#55014 Liquid Optimizer Plus **Concentrate** 1 gallon

#55414 Liquid Optimizer Plus **Concentrate** 4 x 1 gallon case

#55064 Liquid Optimizer Plus **Concentrate** 6 gallon

Industrial and Commercial Applications – Foggers and BON

#F8026 Triple Nozzle

#F7087S Noz-L-Jet

#DT8246 Pow-R-Fog Plus
