BioWorld Odor Neutralizer BON-SA-Formula 45 Surface and Air

BioWorld Odor Neutralizer (BON) is a concentrated liquid organic formulation that eliminates offensive odors at the source. BON consists of all natural odor neutralizing compounds made from biodegradable ingredients extracted from freshly grown specialized plant material. BON concentrate is safe even in contact with human skin or animals. While most products only mask odors with strong scents like perfumes, BON totally neutralizes and extinguishes unpleasant odors without leaving a cover-up scent. BON can be used in concentrated form or diluted to treat virtually any odor challenge in air, water or surface applications. BON is environmentally safe, non-hazardous, non-toxic, non-corrosive and non-flammable.

Use in smaller projects for spraying into air or cleaning surfaces – Homes, Restaurants, Restrooms, Automobile, Office, Hospitals, Schools, Ships, Airplanes, Food Processing Areas, Locker Rooms, Laundry, and many others.

BioWorld Odor Neutralizer (BON-SA-45)

#45027—2 ounce sprayer, 59 milliliters

#45326—32 ounces, 1 liter

#45014—1 gallon, 3.8 liters

#45064—6 gallons, 22.7 liters

#45250—250 gallons, 950 liters

Composition and Physical Properties

Natural Odor Neutralizing Compounds

Minerals & Esters

Special Process Extracts

Product Stabilizers

pH: 6.0-8.0 at 25°C

Boiling Point: 100°C

Freezing Point: 1.0°C

Solubility in Water: 100%

Specific Gravity: 1.0028

Appearance: Clear

Odor: Fresh Scent

BON can be misted or fogged into the air or applied directly to the odor source.
