## Junior Fogger F0335 for BioWorld Odor Neutralizer

When a smaller or less expensive fogger is needed, consider the junior unit. Among its many uses:

- Car detailing
- Rental car turnarounds
- Hotel room smoke odors
- Treat pet stains and odors
- Control flying insects on patios and lawns
- Apply BT or soap solutions to gardens (get underside of leaves)
- Mist cut flowers and interior foliage
- Apply waxes and shines
- Soften leather
- Apply preservatives and lubricants • Raise humidity in coolers.
- It's easy to use. Twist the power head to detach the tank and pour in your solution. Another half twist and you're ready to go. Switch on the handle to run. Adjust output size, from a fine light fog to a coarse mist, with the rotary valve.

The junior fogging unit -- for those "in between" jobs -- too small for an industrial unit, too large for a trigger sprayer or pump-up.

### SPECIFICATIONS

<b>Motor</b>	1/4 Hp, 120VAC, 3 amp; 240VAC, 1.5 amp available Q3'98
<b>Liquid Capacity</b>	One quart [950 ml]
<b>Chemicals</b>	Any lightweight liquid. Nozzles can atomize both oil-based and waterbased fluids.
<b>Particle Size</b>	15-40 microns, adjustable.
