

County Park Algae Resolved with BioWorld Algae Treatment

County Park with filamentous algae covering about one third of a 3 acre pond.

Algae begins to discolor and debris is breaking up and being digested.

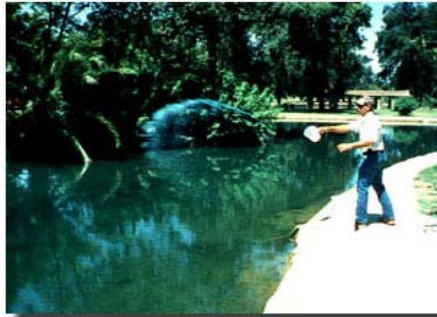

Easy Mixing – Hydrate microbes for 10 minutes

The pond is clear of surface and subsurface filamentous algae.

Apply BioWorld Liquid Optimizer (Blue Product)

Safe and Easy to Apply – No Protective Clothing Required.

In same Location – apply BioWorld Algae Microbes (Brown Product)

BioWorld Products used:
35064 – Liquid Optimizer
30086 – Algae Competitor Microbes
