ODOR CONTROL TECHNOLOGY Eliminate Dead Animal Odors

Exceptional products are needed to aid in the elimination of odors from decomposition of animal remains trapped inside and under buildings and homes. BioWorld's Odor Control Technology is the answer to resolve these persistent odor issues. Let BioWorld help you or your company resolve these harsh odor issues with our BioWorld Liquid Optimizer Plus, **concentrated** odor neutralizers, foggers and accessories.

BioWorld Odor Neutralizer (BON Concentrate) is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell.

BON can be appropriately diluted and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application. Use BON to fog or spray inside the affected area to eliminate odors. Use BON to wipe surfaces clean and deodorize. Add BON to upholstery or carpet cleaners to eliminate odors in carpets, drapes or furniture.

BioWorld Liquid Optimizer Plus is a unique concentrate bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus can be sprayed directly onto organic matter to degrade substances more rapidly than natural decomposition and eliminate odors in the process.

BioWorld Advantages

- Unpleasant odors - making them undetectable
- Special formulation available with disinfectant added to help sanitize air and surfaces.
- Eliminate odors from excreta, vomit, other bodily fluids, decomposition, smoke and other harsh odors.
- BON can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors when these type of products are used.
- BON is used as a key component in a **low odor, low VOC** paint which received Green Seal Certification.
- Environmentally safe, economical and easy to use.
- Cost effective – BON is concentrated which provides you with more product for your money.
- Equipment available for many applications for small, medium or large scale projects including custom designed industrial fogging systems.

Industrial and Commercial Applications – Liquid Optimizer Plus
