BioWorld Fogging Equipment

Use for Insect Control

BioWorld has a variety of foggers that serve the needs for both indoor and outdoor applications. Pest Control Companies and residential home owners need quality fogging equipment that can be relied on for insect control applications.

BioWorld foggers and fogging systems provide the standard of reliability against which other foggers are measured. They are in daily use for such diverse applications as controlling mosquitoes, flies and other insects, controlling odors, disinfecting and sanitizing, carpet mildew control, flood and fire damage restoration, dispensing water for humidification and dust control and a host of applications.

Durable Foggers – Hand-held and Drum mounted

Easy to use – carry from place to place. Available in 110v and 220v.

Special Hose Unit for tight areas. Auto detailing, inside attic, interiors, under beds, etc.

Many Uses of BioWorld Odor Neutralizer (BON) Concentrate:

- Odor control for poultry operations.
- Odor control for food processors.
- Wastewater treatment, odor control for wastewater facilities.
- Odor and waste control for dumpsters, dump sites and composting sites.
- Odor control, mold mitigation, disinfects surfaces for hotels, hospitals, laboratories, nursing homes and biohazard industry.
- Odor control for steel manufacturing facilities.
- Odor control for paint manufacturers and wood crafting companies.
- Odor control for flood and fire restoration.
- Odor and mildew control for carpet cleaning companies.
- Controlling mosquitoes, flies and insects.
- Odor control in restaurants.
- Odor control in homes, condos and apartments caused from paints, chemicals, skunk and dead animal odors.
- BON is used as a key component in a **low odor, low VOC** paint which received Green Seal Certification.
- **Cost effective** – BON is **concentrated** which provides you with more product for your money.

Where to use

- Simply spray diluted BON into the air, apply directly to the odor source or add to chemicals and paints. Customized fogging equipment is available for small, medium or large projects.
- BON can also be mixed with most cleaning solutions.
