Odor control technology for crime scene cleanup services

Crime scene cleanup companies need exceptional products along with exceptional personnel to restore trauma scenes to their original conditions. Eliminating odors isn't an afterthought, it's essential to allowing survivors to begin the grieving process. Advanced BioTech understands. That's why we developed BioWorld Odor Neutralizer, which eliminates odors instead of covering them up. We offer our BioWorld Liquid Optimizer Plus, **concentrated** odor neutralizers, foggers and accessories.

BioWorld Odor Neutralizer (BON) is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell.

BON can be appropriately diluted and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application. Use BON to fog or spray inside the affected area to eliminate odors. Use BON to wipe surfaces clean and deodorize. Add BON to upholstery or carpet cleaners to eliminate odors in carpets, drapes or furniture.

BioWorld Liquid Optimizer Plus is a unique concentrate bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus can be sprayed directly onto organic matter to degrade substances more rapidly than natural decomposition and eliminate odors in the process.

BioWorld Advantages

- Makes unpleasant odors undetectable
- Special formulation available with added sanitizing disinfectant to help sanitize air and surfaces.
- Eliminates odors from crime scene biohazards
- Can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors when these type of products are used.
- Environmentally safe, economical and easy to use.
- BON is concentrated providing you more product for your money.
- Equipment available for many applications for small, medium or large scale projects including custom designed industrial fogging systems.
