## BioWorld Wastewater Treatment, Odor Neutralizer and Fogging Equipment for Treating Wastewater Holding Tanks and Eliminating Offensive Odors on Cruise Ships, Yachts, Commercial Ships and Recreational Vehicles

BioWorld Wastewater Treatment is the most cost-effective product on the market to maintain black water and gray water holding tanks on all types of commercial or pleasure ships and recreational vehicles. BioWorld's environmentally safe "green" product will maintain your wastewater holding tanks, degrade and digest organic waste and eliminate odors.

### Why is BioWorld Wastewater Treatment better than liquid enzymes and microbes alone?

Enzymes are catalysts for chemical reactions and do not reproduce. Microbes in a liquid have a limited useful life and rapidly become ineffective. BioWorld's 2-part enhancement and augmentation product maximizes the ability of the microbes to reproduce and creates an enzyme factory in the waste environment.

### Benefits of BioWorld Wastewater Treatment:

- Customized evaluation.
- Specially designed treatment plan.
- Outstanding customer follow up.
- Absolutely the most powerful treatment available.
- Completely degrades and digests all waste.
- Maintains waste holding tanks without damage to tank.
- Overcome today's harsh wastewater.
- Easy to use.
- Sewage smells and odors are eliminated.
- Environmentally safe and natural.

**Low cost - will save you money by maintaining your system and avoiding mechanical problems.**

BioWorld Wastewater Treatment is formulated to break down today's complex waste including solids, grease, fats, oils, foods, anti-bacterial soaps, detergents, bleaches, fluoride toothpaste, toilet bowl and other cleaning products.

Simply add BioWorld Wastewater Treatment once or twice per month to maintain your wastewater holding tanks, degrade and digest organic waste and eliminate odors.

When odors become an issue, use BioWorld Liquid Optimizer Plus, BioWorld Odor Neutralizer and foggers to eliminate odors on contact.

**BioWorld Odor Neutralizer (BON Concentrate)** is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates

Developer of MultiFIX™ and BioWorld Products™

offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted (2 – 10%) and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application.

**BioWorld Liquid Optimizer Plus** is a unique **concentrate** bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus (2 – 25%) can be sprayed directly onto organic matter in dumpsters and trash cans to help accelerate the degradation process while minimizing odors in the process.

## BioWorld Advantages

- Unpleasant odors - making them undetectable
- Eliminate odors from passenger rooms, bathrooms, kitchens, dining rooms, restaurants, infirmary, hallways, offices, dumpsters, trash cans.
- Add Bon to shampoo and clean carpets and upholstery.
- BON can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors when maintenance is implemented.
- BON is used as a key component in a **low odor, low VOC** paint which received Green Seal Certification.
- Environmentally safe, economical and easy to use.
- Cost effective – BON and Liquid Optimizer Plus is concentrated which provides you with more product for your money.
- Equipment available for many applications for small, medium or large scale projects including custom designed industrial fogging systems.

## Industrial and Commercial Applications – Liquid Optimizer Plus

#55014 Liquid Optimizer Plus **Concentrate** 1 gallon

#55414 Liquid Optimizer Plus **Concentrate** 4 x 1 gallon case

#55064 Liquid Optimizer Plus **Concentrate** 6 gallon
