## Dumpster Odor Clean Up

BioWorld has available a wide range of foggers that serve the needs of a wide range of uses for both indoor and outdoor application. Wastewater treatment plants, food plants, hotels, barns, parks and hospitals are just a few examples of sites which depend on this type of fogging equipment for effective treatment.

These foggers and fogging systems provide the standard of reliability against which other foggers are measured. They are in daily use for such diverse applications as controlling odors, disinfecting and sanitizing, carpet mildew control, flood and fire damage restoration, controlling mosquitoes, flies and other insects, dispensing water for humidification and dust control and a host of applications.

### Durable Foggers – Hand-held and Drum mounted

Easy to use – carry from place to place. Available in 110v and 220v.

Special Hose Unit for tight areas. Auto detailing, inside attic, interiors, under beds, etc.

Special Units that fit right on product drums. Use in large warehouses or outdoors.
