Freight Companies - Eliminate Odors In Shipping Containers

Use BioWorld Odor Neutralizer and Foggers

Benefits when using BioWorld Odor Neutralizers:

- Eliminate odors in shipping containers after hauling odorous materials.
- Environmentally safe and natural BON is added to paints, solvents, cleaners and chemicals to eliminate harsh odors.
- Versatile and easy to apply - use sprayers or foggers. Cost effective – BON and Liquid Optimizer Plus are concentrated providing you with more product for your money.
- Equipment available for any application small, medium or large scale projects.
- Customized evaluation by our technical staff. Outstanding customer follow up.

(Jessica - Texas) Customer comment: " We have had great success using your product, and I highly recommend both the BioWorld Odor Neutralizer and Foggers. We have determined that our venue faced odor problems during the hot summer and early fall. We plan to continue ordering more products from you in the future. Thank you for following up with me and for providing a great product and superior customer service."

Freight Companies need exceptional products to eliminate odors inside their shipping containers to keep cargo from being contaminated with other harsh or bothersome odors. BioWorld's Odor Control Technology is the answer to resolve these persistent odor issues. Let BioWorld help you resolve these matters for your clientele with our **concentrated** odor neutralizers, foggers and accessories.

BioWorld Odor Neutralizer (BON Concentrate) is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, BON neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted (2 – 10%) and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of the odor neutralizer application.

BON can be added to solutions or used to clean and eliminate odors from:

-

BioWorld Liquid Optimizer Plus is a unique **concentrate** bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus can be sprayed directly onto organic matter in shipping containers, dumpsters, vault/portable toilets and trash cans to help accelerate the degradation process while minimizing odors in the process. Liquid Optimizer Plus can be applied to areas affected by sewage back up to degrade waste and eliminate odors.
