Odor Control Technology For Horse Stables/Equestrian Operations

Horse Stable facilities and Equestrian operations desire to foster and maintain a safe and healthy environment for customers and employees. However, odors exist in most animal operations. Let BioWorld help your facility maintain a pleasant environment with our BioWorld Liquid Optimizer Plus, odor neutralizers, foggers and accessories.

BioWorld Liquid Optimizer Plus is a unique **concentrate** bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus can be sprayed directly onto organic matter to control odors in areas where animals are housed without harm to the animals. Product is applied with a tank sprayer to concrete and soil areas to control odors from urine and feces.

BioWorld Odor Neutralizer (BON Concentrate) is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted (2 – 10%) and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application.

BioWorld Advantages

- Eliminate odors inside and outside of horse stables.
- Eliminate odors in your home, car, truck, RV.
- Neutralize most odors associated with animals.
- Less odors means fewer flies around the area.
- Environmentally safe, economical and easy to use.
- Safe for animals of all ages - newborn to very old.

Cost effective – BON is concentrated which provides you with more product for your money. BON can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors when maintenance, roofing, and flooring repair work is implemented. BON is used as a key component in a **low odor, low VOC** paint which received Green Seal Certification. • Equipment available for small, medium or large-scale projects including custom designed industrial fogging systems.
