## ODOR CONTROL TECHNOLOGY Eliminate Smoke Odors in Homes, Offices, and Schools

Smoke odors can be an unexpected problem when these odors occur from accidental fire damage, fire damage caused by mother nature, arson or smoke odors caused by cigarette smoking. When these odors appear, a quick response is essential. Let BioWorld help maintain a pleasant environment in your facility with our BioWorld Odor Neutralizers, Liquid Optimizer Plus, foggers and accessories.

**BioWorld Odor Neutralizer (BON Concentrate)** is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted (2 – 10%) and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application.

**BioWorld Liquid Optimizer Plus** is a unique **concentrate** bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus (2 – 25%) can be sprayed directly onto organic matter in dumpsters and trash cans to help accelerate the degradation process while minimizing odors in the process.

### BioWorld Advantages

- Unpleasant smoke odors - making them undetectable
- Eliminate smoke odors from homes, offices, classrooms, bathrooms, kitchens, lunchrooms, nurse's office, dumpsters, and trash cans.
- BON can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors when maintenance, roofing, and flooring repair work is implemented.
- Environmentally safe, economical and easy to use.

Cost effective – BON is concentrated which provides you with more product for your money. Equipment available for many applications for small, medium or large-scale projects including custom designed industrial fogging systems.
